

# Syed Zohaib Haider (Zebi Shah)

## Full Stack Developer

I'm a fresh graduate with comprehensive expertise in the MERN stack. My hands-on experience includes developing dynamic web projects, from backend logic to responsive frontends. I'm passionate about crafting efficient and scalable applications. Eager to bring my skills and enthusiasm to an innovative tech team.

## PERSONAL PROJECTS

### Epic Explorer (02/2024 - Present)

- we were allowing users to book tours and different accommodations like hotel booking and transport booking in our site. And we were allowing user to do payment online through stellar blockchain.
- its helping users to book all type of tours, transport and hotel rooms in one place easily by online booking.
- My Role: my role includes Frontend Development (Ui building designing) using react and tailwind css, backend development using nodejs expressjs and mongodb and api integration etc.

### Notia (06/2023 - 08/2023)

- we were allowing users to write their small notes and todos here whatever they want to include in their notes or todos.
- we were having security for every user account on our website (notia) and proper database for notes and todos for it.
- My role: my role includes my role includes Frontend Development (Ui building designing) using react and tailwind css, backend development using nodejs expressjs and mongodb and api integration etc.

### Weather Website (08/2022 - 10/2022)

- we were showing complete weather forecast to user. user can see weather forecast of his city globally at one click.
- we have beautiful interface and user friendly interface for showing weather to user.
- My role: my role was to make frontend with html css javascript and i've used the Live weather api from which i fetch data on search by user of any city.

### Travelo Landing Page (02/2023 - 03/2023)

- I've Made a tour and travel website complete landing page frontend which contains a lot of different sections and it has a beautiful interface and smooth scroll reveal.
- it was just the frontend Ui for tour and travel website with responsive and user friendly Ui.
- My Role: my role was to make front end with react and vanilla css plus some javascript and scroll reveal plus some animations.
